Mobile: +91-8610814818

SKILLS

- **Languages:** Python, C, C++, SQL, HTML/CSS
- **Frameworks:** FastAPI, TensorFlow, Keras, Scikit-Learn, NLTK, OpenCV, Pandas, NumPy, Matplotlib, Flask, Django
- **Tools:** GIT, PostgreSQL, MongoDB, MySQL, AWS, Selenium, Redis, Celery

EXPERIENCE

- **Cogoport** Mumbai
Software Development Engineer - 1 *Jul 2023 - Dec 2023*
 - Designed and implemented improved algorithm and system for Dynamic Pricing of Freight in the company for 3+ services.
 - Enhanced scalability of the system, which now accommodates a 300% increase in customer base while maintaining system efficiency.
 - Reduced the API response time by 60% by introducing indexing, query optimization techniques and caching strategies.
 - **Role:** Backend Engineer - Python **Tech :** Python, FastAPI, PostgreSQL, Selenium, Ruby on Rails
- **Cogoport** Mumbai
Software Developer Intern *Feb 2023 - Jul 2023*
 - Developed an upgraded ML algorithm to predict Ocean Freight (FCL) prices, achieving a remarkable 35% improvement in accuracy.
 - Leveraged statistical techniques to forecast supply and demand trends in FCL Service, which constitutes over 90% of the revenue.
 - Collaborated with stakeholders to optimize pricing strategies, resulting in a increase in profitability by 20%.
 - **Role:** Backend Engineer - Python **Tech :** Python, Scikit-Learn, Matplotlib, XGBoost
- **Indian Institute of Science** Remote
Research Intern *Dec 2022 - Jun 2023*
 - Achieved an impressive accuracy of 65% in handwritten digit classification using the QCNN model and 75% using QNN model.
 - Co-authored a research paper on the quantum approach for object detection and classification and submitted it to a reputed journal.
 - **Topic:** A Quantum Convolutional Neural Network Approach for Object Detection and Classification.
 - **Tech:** Python, Tensorflow-Quantum, Tensorflow, Cirq
- **Fitmedik.com** Remote
Machine Learning Intern *Mar 2022 - Dec 2022*
 - Successfully built an algorithm to predict sleep scores with an accuracy of 80% and establish a connection with heart problems.
 - Developed an algorithm to predict PAI scores with a remarkable accuracy of 85% and uncover strong correlation with burnout rates.
 - **Role:** Design and implement methods to analyze the relationship between physiological indicators and burnout levels
 - **Tech:** Python, Random Forest, Scikit-learn, XGBoost

EDUCATION

- **Vellore Institute of Technology** Vellore, India
Bachelor of Technology - Computer Science Engineering; CGPA: 8.84 *June 2023*

PROJECTS

- **Image Captioning:** A deep learning model that takes an image as input and returns a text description of the image.
Tech: CNN(VGG16), LSTM, NLTK *Link : <https://github.com/IamRash-7/Image-Captioning/>*
- **picPicker:** An image classification model, that takes an image input and returns 10 similar royalty-free images from Unsplash
Tech: Transfer Learning(Mobilenet v2), Flask, AWS EC2
- **Facial Recognition:** Implementation of the Research Paper "Siamese Neural Networks for One-shot Image Recognition"
Tech: Tensorflow, OpenCV, Siamese Neural Network *Link : <https://github.com/IamRash-7/Facial-Recognition>*

CERTIFICATES

- Python for Everybody Specialization Coursera
- Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning Coursera
- Neural Networks and Deep Learning Coursera

VOLUNTEER EXPERIENCE

- **Core Committee Member AT CodeChef-VIT** Jan 2021 - May 2022
Mentored two juniors and contributed to the development of the picPicker project as the lead. *VIT Vellore*
- **Projects Team Head AT HOPE Foundation (NGO)** Jan 2021 - Jan 2022
Led a team in creating awareness among school students on sustainable menstruation practices. *REMOTE*
- **Co-Curator AT JuhuReads** Jul 2023 - Dec 2023
Organizer of the Juhu Chapter of Quiet Reading Movement started by CubbonReads *Mumbai*
